

D) MY COUNTRY!

1. Introduction – Let's listen to a song!

a) Listen to a Milow's song. What country does the singer describe?

b) Listen to the song again and fill in the tasks:

1) Put the sentences in the right order:

Where I'm from there's barely space left	
Even if alarm bells ring	
Where I'm from they have a princess	
And time is standing still	
Where I'm from they don't like changes	
Where I'm from there are no mountains	
Where I'm from they have a king	
Still they're running up a hill	

2) Fill in the blanks:

Where I'm from they don't like
 They are told to shut their mouth
 Where I'm from they're divided
 the North and the South
 Where I'm from it's like a long night
 That never turns to
 Where I'm from the kingdom's trembling
 Where I'm from they've the way

3) Chorus:

Sing it loud today
 Sing it loud today
 I'm singing it loud today
 I am the one that got away

4) Some words don't belong to the lyrics. Cross them out:

Where I'm from they still just keep rooted
 Heads are always hanging low
 Where I'm from the Congo River
 Never got nowhere to go
 Where I'm from strong words are repeated
 But they never really rhyme
 Where I'm from the huge kingdom's trembling
 Where I'm from they're losing time

5) Match the beginning of the sentences with the correct ending:

Where I'm from	the more they fix it
Both in politics	in my DNA
Where I'm from	every day
The faster	and song
Where I'm from	still my kingdom
So I will sing it	everything goes wrong
That this kingdom is	I still remember
It's encoded	there's a lack of heroes
